The following is a list of courses that are being offered by the NBCSA. If you would like to register for any of these courses please contact **Krista Jardine** at 506-627-1477, by e-mail at registration@nbcsa.ca or fax at 506-624-9581. **NOTE:** All of our courses are available in any area, providing there are sufficient numbers of interested participants or if the company (companies) wish to cover a **minimum class recovery fee** to put on the course.

New to NBCSA – Manlift Awareness On-Line!

**We have Safety Orientation, WHMIS,
Confined Space Awareness Refresher and Fall Protection Refresher On-Line***

***Please note:** Students taking the On-Line Fall Protection Refresher are only permitted to refresh on-line once every six years. This means that if a person has taken a classroom course, when their certificate is up for expiry they can take the Refresher On-Line, however when that certificate expires they must take the classroom course.

Due to the high demand, additional courses may have been added to our schedule with more being added every week. Please check this bulletin for added dates. Dates in bold have been added to the regular schedule.

HAZARD ALERT 

WorkSafeNB would like to remind operators, contractors, employers and employees of the hazards created by blind spots in dump trucks. In 2017, a New Brunswick worker was killed when the operator of a dump truck failed to see him in front of his vehicle while driving.

We're looking for your help in sharing this message and building awareness of the safety precautions and procedures to follow when operating heavy equipment. We're hoping you can share with your members and/or stakeholders.

If you have any questions, please reach out to: communications@ws-ts.nb.ca.

Thank you for your support!

WorkSafeNB

DANGER-ALERTE 

Les angles morts sur les camions à bascule causent des situations dangereuses

Travail sécuritaire NB tient à rappeler aux conducteurs, aux entrepreneurs, aux employeurs et aux travailleurs les dangers des angles morts sur les machines lourdes. En 2017, un travailleur néo-brunswickois a perdu la vie lorsque le conducteur d'un camion à bascule ne l'a pas vu devant la machine.

Nous vous demandons votre aide afin de partager ce message et de mieux faire connaître les précautions de sécurité et les procédures à suivre lorsque vous conduisez des machines lourdes. Nous espérons que vous pourrez partager ce courriel avec vos membres ou intervenants.

Si vous avez des questions, veuillez envoyer un courriel à l'adresse communications@ws-ts.nb.ca.

Merci de votre appui!

Travail sécuritaire NB

CALL FOR PRESENTATIONS

2020 National LCIC Conference
April 28 – 30, Winnipeg

Submit your proposal by December 11, 2019

The Lean Construction Institute of Canada (LCIC) is inviting knowledgeable speakers to share expertise, experience and knowledge on Lean principles at the fifth annual LCIC national conference being held April 28 to 30, 2020 in Winnipeg, Manitoba.

This educational event is attended by members of all sectors of the Canadian construction industry – including owners, designers, consultants, contractors, trades, suppliers, as well as those from other sectors, such as insurers and lawyers. The conference is intended to further promote Lean practice in Canada and foster a culture of continuous improvement and collaboration.

LCIC is looking for Lean-oriented presentations about the construction industry that will prove both educational and entertaining to attendees. We are open to all proposals, but please review the list below for some presentation topics we would like to see covered:

- Introduction to Lean for owners
- The analytical case for Lean
- How to get Lean into different contract types
- Implementing Lean beyond contractual obligations
- Contractor's profitability through Lean
- How Lean can affect the project outcome
- Risk, liability, and professional obligations for designers utilizing Lean practices

Conference sessions should be 60 minutes in length, while training day sessions should be either a half- or full-day (please specify in your proposal). The deadline for submissions is **December 11, 2019**.

[Submit your proposal](#)

Submission requirements

All presentation submissions should include:

- Speaker bio – a short biography of the speaker (maximum 250 words)
- Session name – a descriptive title of the presentation (maximum 10 words)
- Session type – either training day or conference

- Session description – a brief description of the presentation for marketing materials (40 to 60 words)
- Program abstract – a summary of the presentation (approximately 250 words)
- Key learning objectives – at least three lessons attendees will take away from the presentation
- Speaking references – two references for the speaker or links to videos of previous presentations
- Target audience – beginner, intermediate, and/or advanced

Please forward any questions regarding the conference, or LCIC in general, to Zack Mullins at zmullins@cca-acc.com, or (613) 236-9455, ext. 442.

Project Management Program: spring dates announced

The Construction Education Council is pleased to announce the latest series of dates in its always-popular Project Management Program.

Book your calendars for the week of March 5-9 and March 26-30 for this informative gold and blue seal-accredited 10-day course. The course is designed to help you:

- improve the planning and controlling of your projects,
- take a business view of projects and take ownership of a project from bid to final payment,
- increase your own project "lessons learned" by learning from experiences of other participants,
- be able and willing to contribute improvements to your company's project management process, and
- be better prepared to take the Gold Seal examination, if you choose.

Check out [the attached PDF](#) for more information.

Advanced Project Management: dates in late November

The Construction Education Council has just announced the latest offering of its Gold and Blue Seal Accredited Advanced Project Management Program. Book November 29 to December 2 in your calendar, and plan to attend at the University of Waterloo.

Course topics include:

- The Art of Facilitative Leadership
- Financial and Basic Accounting Principles for Project Managers
- Organizational Planning - Portfolio Management
- Principles of Lean for Construction

Decrease in Sept. building permits due to residential sector

Source: *Plumbing + HVAC*

In September, the total value of building permits issued decreased by 6.5 per cent to \$8.3 billion. This is

mostly due to a decline in the residential sector. The largest decline was in Quebec. Only four provinces saw gains, with the largest increase in Alberta.

MCA Canada's Charity of Choice

Join us in supporting the ALS Society of Alberta: our Charity of Choice

MCA Canada recently named the ALS Society of Alberta as our Charity of Choice for 2019.

This charity was chosen to honour MCAC Secretary/Treasurer David Flamand's sister Patsy Brooks. The ALS Society of Alberta is dedicated to making each day the best possible day for people living with and affected by ALS. It is the only charitable organization in Alberta that provides support to families affected by the disease.

It's the law now: mandatory data breach reporting.

If your organization's data is breached, do you know the steps you're required to follow, and whether it needs to be reported to the Office of the Privacy Commissioner (OPC)?

On November 1, 2018 the Canadian government released new regulations for how organizations report data breaches under Canada's federal data protection law, the Personal Information Protection and Electronic Documents Act (PIPEDA).

Organizations that fail to comply with these rules could face financial penalties and legal action.

In this complimentary **breakfast session**, you'll learn more about:

- What constitutes a data breach
- The types of breaches that must be disclosed
- How to submit a breach report to the OPC
- When and how impacted individuals need to be notified
- The mandatory record-keeping requirements for all breaches
- What areas are not covered in the regulations
- How to safeguard your organization from data breaches
