Important Business Opportunities for Subcontractors

Under the banner of NouvLR group, SNC-Lavalin, Dragados, AECOM, Pomerleau and EBC have joined forces to design and build the Réseau Express Métropolitain (REM), Canada's largest transportation infrastructure project in the last 50 years. With 67 km of railways and 26 stations, it represents a multi-billion dollar investment in public transit and a flagship project for the Greater Montreal region. To carry out this work, NouvLR requires the support of several subcontractors. Although several mandates have already been allocated, several hundreds of millions of dollars of work are still available to be awarded. We are looking for partnerships with subcontractors interested in moving around the Greater Montreal area to carry out works in:

- Formwork, reinforcing steel and concreting
- Urban works (relocation of utilities)
- Building construction
- Electromechanical works
- Prefabricated structures
- Civil works construction

We invite interested subcontractors to come and meet us on June 5th, 2019, at Complexe Capitale Hélicoptère, 1688 Route de l'Aéroport, in Quebec City. Free parking spaces are available on site. The event will allow you to learn more about business opportunities and meet NouvLR's leaders.

Two meetings are scheduled. A first 30-minute presentation will be held at 1:00 pm, followed by a networking period until 3:00 pm. The second presentation will begin at 4:00 pm and networking will continue until 6:00 pm. Both presentations will be in French.

You must register before May 29th. Hurry, places are limited!

To register for the event, visit the EVENTBRITE platform at this address:
