

Effective January 1, 2017, there have been changes to the qualifying criteria for Gold Seal Certification. The most significant of these is the introduction of a mandatory course in Construction Ethics. For more information on Gold Seal Certification please go to www.goldsealcertification.com

The Construction Industry Ethics course has been designed to help participants understand ethics as it relates to the construction industry through practical examples of ethical decision making. The course contains interactive elements, case studies, practical examples, videos, and a course glossary.

Credits/Certificates

The online ethics course **PLUS** a full day classroom ethics course will be mandatory to receive **Gold Seal Certification**. Gold Seal has allocated a total of 3 credits to this course (2 for the online portion and 1 for the classroom portion). A final mark of 100% is required in order to receive a certificate of completion.

Objectives

Upon completing this course, participants will:

- Understand what is included in “ethical behaviour”
- Be aware of the importance of ethics in business
- Know how to make ethical decisions
- Recognize ethics in the context of the law
- Understand the direct link between ethics and a company’s success

Structure and Workload

This course consists of **7 lessons** of approximately 35 minutes duration each, for a total of about **4 hours** of self-paced instruction. The classroom component is a full day.

It is strongly suggested that the on-line component be completed before participating in the classroom session.
