Unconscious Bias: Understanding Bias to Unleash Potential

NBCC Moncton
1234 Mountain Road, Moncton

Wednesday, February, 12th
Registration & networking : 7:45am
Workshop & breakfast : 8:00am - 9:30am

We hear a lot about Bias these days but what is Bias really? And how could it be impacting the potential of your business? This Breakfast and Learn will highlight how to identify three common bias traps, the importance of cultivating connections and choosing courage to address bias.

Préjugés inconscients: comprendre les préjugés pour libérer le potentiel

NBCC Moncton
1234 Chemin Mountain, Moncton

Le mercredi 12 février
Réseautage et inscription : 7h45
Atelier et petit-déjeuner : de 8h00 à 9h30

Nous entendons beaucoup parler de préjugés ces jours-ci, mais que sont véritablement les préjugés? Et comment pourraient-ils avoir un impact sur le potentiel de votre entreprise? Cet Atelier du matin mettra en évidence comment identifier trois pièges des préjugés courants, l'importance d'entretenir nos connexions et de choisir le courage pour lutter contre les préjugés.

Connect, Organize and Optimize with BIM 360

January 23, 2020 - 1:30pm - 2:30pm EST

Learn how to set up, review and share a project in BIM 360 Docs and Design. With the management and collaboration modules, you can publish and review Revit files directly on the cloud, and also interact with all members of the project through markups and requests for information. Finally, you'll see how to use powerful change visualization tools to compare model versions. This presentation will discuss and demonstrate some of the key functionalities.

Learning objectives:

- How to use the BIM 360 interface.
- Revit cloud work-sharing.
- Managing project files and member access in BIM 360 Docs.
- Introduction to collaboration in BIM 360 Design.

The webinar will also provide times for Q&A.

Introduction to FormIt

January 30, 2020 - 1:30pm - 2:30pm EST

Join SolidCAD and learn how to make the most out of your AEC Collection by adding FormIt to your workflow! FormIt architectural modeling software enables architects to 3D sketch, collaborate, analyze, and share early-stage design concepts and the energy modeling and shading analysis capabilities.

Besides being an intuitive 3D sketching app, it is interoperable with Revit, Navisworks, the Windows apps, Dynamo computation and BIM 360 Docs.

Learning objectives:

- Modeling in FormIt overview.
- Working on models concurrently with other team members and Google Map.
- Discuss Autodesk® Revit® integration which will allow you to connect design concept data to fabrication via BIM.
- A smooth flow exists when transitioning between FormIT Pro and Revit.
- Discuss energy analysis capabilities within FormIt Pro.

The webinar will also provide times for Q&A.

Thursday, January 30

Green energy focus for Eastern premiers, deal between utilities

A recent meeting of the Council of Atlantic Premiers was dominated by the need for more green energy in the region as efforts intensify to reduce carbon emissions, and featured a discussion with Québec Premier François Legault over opportunities to develop, transmit, and exchange clean energy resources such as hydro-electricity.

The meeting followed on the heels of NB Power and Hydro-Québec signing deals that will boost electricity sales to New Brunswick and provide help for the looming refurbishment of the Mactaquac dam near Fredericton. [Read more](#)

Nova Scotia communities join forces for wind energy

A partnership between three Nova Scotia towns to develop a wind farm could be an inspiration for other communities looking for collaborative ways to develop green energy. Mahone Bay, Antigonish and Berwick joined forces several years ago as they looked for ways to provide affordable and environmentally safe power. They created the Alternative Resource Energy Authority. [*Read more*](#)

Solar farm to provide bulk of electricity needs for P.E.I. community

A new solar farm expected to cost nearly \$70 million is expected to provide more than 60 per cent of the electricity needed by Summerside, P.E.I. The 21-megawatt solar farm and battery storage facility will improve the energy efficiency of the community while reducing carbon dioxide emissions by 21,000 tonnes per year. [*Read more*](#)

Commentary: The importance of smartening up the electrical grid

Patty Durand, president and CEO of the Smart Energy Consumer Collaborative, says environmental benefits offer the most persuasive arguments for investments in upgrading the electric grid. [Read more](#)

Commentary: The future of small nuclear reactors

New Brunswick is emerging as a hub for research into the next generation of nuclear technology. In a commentary, Norman JD Sawyer, a native New Brunswicker and president and CEO of ARC Nuclear Canada, Inc., explores the advantages the province has in pursuing development of small modular reactors. NOTICE RE: NATIONAL ADVISORY COUNCILS AND BOARD COMMITTEES

Dear colleagues and members,

On behalf of the Nominating Committee of the Canadian Construction Association (CCA), we thank the many members from across Canada who put their names forward to participate in CCA's National Advisory Councils and/or Board committees. Please see the list of nominees at the link below.

NOMINATIONS SLATE

Candidates will be confirmed at the first meeting of the new 2020/2021 Board, which will take place on March 18, 2020 at 11:30 am. Chairs will also be selected from amongst the Board for each National Advisory Council.

However, as a reminder, we will pilot the National Advisory Council format on March 14, 2020, with the current 2019/2020 Board members and any observers.

Each National Advisory Council will discuss topics provided to them in advance, to provide feedback back to the Board.

The first official National Advisory Council meetings will occur in Ottawa, November 3 - 4, 2020, as part of our Hill lobby day.

The meetings of the Board committees will be communicated following official appointment by the new Board in March.

Best regards,

Mary Van Buren, MBA, CAE

President
