

NEWS & EVENTS

February 28, 2020

DATE	2020 EVENTS	LOCATION
March 23, 2020	AGM – Membership Dinner	Four Points by Sheraton Moncton 40 Lady Ada Blvd.
March 25, 2020	Spring Educational Breakfast	TBD
April 17, 2020	VIP Owners & Builders Dinner Spring Thaw	Delta Beausejour Moncton, NB Time:
June 11, 2020	Summer BBQ – Moncton	297 Collishaw Street Moncton, NB Time: 12:00 p.m.
June 18, 2020	Summer BBQ – Bathurst	TBD
September 17, 2020	Construction Industry Golf Tournament	TBD

The following is a list of courses that are being offered by the NBCSA. If you would like to register for any of these courses please contact **Krista Jardine** at 506-627-1477, by e-mail at registration@nbc.ca or fax at 506-624-9581. **NOTE:** All of our courses are available in any area, providing there are sufficient numbers of interested participants or if the company (companies) wish to cover a **minimum class recovery fee** to put on the course.

New to NBCSA – Manlift Awareness On-Line!

Please check our website for dates in 2020!

We have our schedule in calendar format now on our website for easier viewing.

Note that dates that are greyed out are full

We have Safety Orientation, WHMIS,

Confined Space Awareness Refresher and Fall Protection Refresher On-Line*

***Please note:** Students taking the On-Line Fall Protection Refresher are only permitted to refresh on-line once every six years. This means that if a person has taken a classroom course, when their certificate is up for expiry they can take the Refresher On-Line, however when that certificate expires they must take the classroom course.

Due to the high demand, additional courses may have been added to our schedule with more being added every week. Please check this bulletin for added dates. Dates in bold have been added to the regular schedule.

MONCTON AREA		
March 4/5, 2020	Miramichi	Leadership for Safety Excellence
March 6, 2020	Moncton	Fall Protection I
March 9, 2020	Miramichi	Manlift Awareness
March 9, 2020	Miramichi	Traffic Control Person
March 10, 2020	Miramichi	DTI Workplace Area Traffic Control Manuel
March 9-11, 2020	Moncton	Joint Health & Safety Committee (FULL)
March 11, 2020	Moncton	Hazard Identification and Control

NOTICE RE: NATIONAL ADVISORY COUNCILS AND BOARD COMMITTEES

Dear colleagues and members,

On behalf of the Nominating Committee of the Canadian Construction Association (CCA), we thank the many members from across Canada who put their names forward to participate in CCA's National Advisory Councils and/or Board committees. Please see the list of nominees at the link below.

NOMINATIONS SLATE

Candidates will be confirmed at the first meeting of the new 2020/2021 Board, which will take place on March 18, 2020 at 11:30 am. Chairs will also be selected from amongst the Board for each National Advisory Council.

However, as a reminder, we will pilot the National Advisory Council format on March 14, 2020, with the current 2019/2020 Board members and any observers.

Each National Advisory Council will discuss topics provided to them in advance, to provide feedback back to the Board.

The first official National Advisory Council meetings will occur in Ottawa, November 3 - 4, 2020, as part of our Hill lobby day.

The meetings of the Board committees will be communicated following official appointment

by the new Board in March.

Best regards,

Mary Van Buren, MBA, CAE

President

New Brunswick is facing major labour shortages over the coming decade, with 120,000 employees forecasted to leave the workforce. Compounding this issue is a changing economy that requires more technically skilled workers than ever before.

With the vast majority of retirements still to come, New Brunswick employers need to act now to adjust recruitment and retention strategies. **ACEC-NB invites you to join us Wednesday April 8, 2020 at 4pm** following our annual general meeting to discuss how our industry (and province) can tackle these issues.

Invite your co-workers, clients, anyone that might be interested (no charge to attend).

2020 PANEL

Understanding Your Most Valuable Resource: **let's talk about diversity, retention and training**

4:00 – 5:30 pm April 08, 2020

Fredericton Convention Centre | Pointe Anne Room C

Susan Holt is Vice President, Strategy & Sales at PQA and PLATO Testing. In late 2015 PQA created PLATO Testing, an Indigenous led and staffed software testing company, to address both the challenges of finding good software testing talent and the barriers to Indigenous Peoples' participation in the tech sector. Today both companies are growing and attracting talent more quickly than ever! Susan will share how this social impact solution has delivered unexpected benefits to PQA's business.

Nicole Paquet is a Senior Change Management Consultant with Mariner Innovations, and has over 20 years of experience in both industry and consulting, focusing on supporting clients through the people impacts related to change and business transformation. Nicole will speak about the importance of an intentional and thoughtful people change strategy, and leaders' role in creating an environment where teams can thrive as they develop new competencies, behaviours, and mindsets to fully support the business strategy.

Robyn Tingley is the owner and CEO of GlassSKY Inc., a group that works with progressive employers on strategies for modern workplaces, including diversity and inclusion, retention and engagement, and effective communications strategies. Robyn will speak about the shifts in employee demographics and how employers are preparing to embrace the next generation of talent, which is increasingly female, globally diverse, and younger than ever before. She will also share findings from ACEC-NB's recent study on women in consulting engineering.

NEWS RELEASE

An important day in the development of clean energy options in the region

Today was an important day in the development of clean energy options in the region as the Atlantica Centre for Energy and partners forged a consortium dedicated to pursuing innovations to reduce carbon emissions. At a news conference in Saint John, N.B. this afternoon, the Atlantic Clean Energy Alliance shared its ambitions and vision for the path forward.

I offer my personal thanks to all who were behind today's successful launch. I include the news release below for your interest – we've posted more information on the Atlantic Clean Energy Alliance on the [Atlantica website](#).

Sincerely,

Colleen

New alliance formed to develop clean energy technology in New Brunswick

SAINT JOHN, N.B., Feb. 24, 2020 – A consortium of partners has joined together to seize the opportunities and benefits of clean energy development in Atlantic Canada. Collectively the group is working towards meeting the challenge of satisfying 2050 global emissions reduction targets.

"We have brought together key partners representing community, academia, private- and public-sector participants to collaborate on clean energy development in New Brunswick," stated Colleen d'Entremont, president of the Atlantica Centre for Energy. "The province is well-positioned as the centre for development of fourth-generation small modular reactors."

The Atlantic Clean Energy Alliance consists of representatives of the University

of New Brunswick, Moltex Energy, ARC Nuclear Canada, NB Power, Atlantica Centre for Energy, the Department of Natural Resources and Energy Development, Opportunities New Brunswick and Economic Development Greater Saint John.

The partners have committed to fostering energy innovation by working as a collaborative alliance and assist in moving the provincial economy forward.

Representatives of the Alliance will be front and centre this week during the Canadian Nuclear Association national conference in Ottawa. The conference features New Brunswick small modular reactor (SMR) technology development and the opportunities it presents.

New Brunswick is gaining traction in the development of SMR technology as evidenced by ARC Nuclear Canada and Moltex Energy establishing offices in Saint John, as well as Laurentis Power Group establishing its first office outside Ontario (in Saint John).

New Brunswick, Saskatchewan and Ontario recently announced an MOU regarding development of SMR technology in Canada, with three streams of concurrent development taking place.

"Small modular reactors are well-positioned to provide a significant solution to global climate change by helping to meet rising worldwide energy demand in a way that will also reduce emissions," said Natural Resources and Energy Development Minister Mike Holland. "In addition to providing our own electricity needs from emission-free sources, advanced SMRs can reduce the amount of greenhouse gas emissions significantly and support future renewable generation."

Energy innovation was identified as a priority sector to grow New Brunswick's economy, consistent with federal programs to encourage clean energy development.

Wayne Long, MP for Saint John-Rothesay and vocal supporter of the development of grid-scale SMR technology in New Brunswick commented, "I am working tirelessly to secure a significant federal investment to support this New Brunswick initiative. This clean technology is key to reducing emissions and tackling climate change."

The Alliance is interested in adding other clean energy innovators as interest grows.
